Replies to Bidders' Queries Batch-01

Issue Date: 30th Apr, 2025

S.No	Queries	Document Ref:	USF Response
1	With respect to NG-BSD Abbotabad Lot, Schedule-C contains total population counts against the mandatory mouzas, while there appears to be no population data available for the individual population points.	Schedule C of Draft SSA	Additional Population Points provide the location (co-ordinates) of population pockets in the surroundings of each mauza. These are provided to help the SP to identify population pockets associated with a Mauza and meet the required population coverage targets. If, during implementation phase, the targeted population is not found at the mauza reference point by the implementing partner, then these population points may be considered around the target mauza to fulfill the mandatory population coverage criteria.
